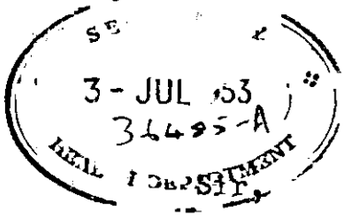
SUBMITTED on 2/7/53

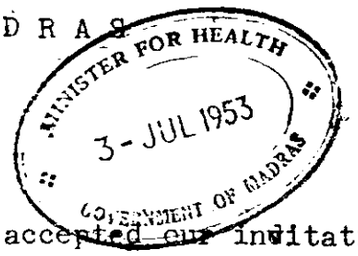
TO THE

HON'BLE SRI A.B.SHETTY, MINISTER FOR HEALTH,

GOVERNMENT OF M A D R A S

@@





We thank you for having accepted our invitation at short notice and consented to visit our office. We avail of this opportunity to place before you some of our problems for kind consideration by you and the government.

At the very outset we will be failing in our duty if we do not express our indebtedness to you and the government of Madras for sanctioning the Water Supply Scheme for this municipality with Netravathi river as source, at a cost of 82.85 lakhs, and fixing our share of the cost at 25.5 lakhs. You are well aware, that although in the first instance the government agreed to advance a loan of 25.5 lakhs to enable us to meet our aforesaid share of the total cost, subsequently the government has directed us to raise a loan within our Municipal area to meet our share of the cost, before further work could proceed. As the government had already granted to us a loan of Rs.8 lakhs in 1952-53, to enable us to meet our said share of the cost, and the government has been pleased to provide a further loan of 2.5 lakhs in their budget for 1953-54, we have to find only the balance of 15 lakhs towards our share of the cost of the said scheme. So this council has decided to raise a loan of Rs.15 lakhs by floating debentures of 15 years' duration at 4¼ per cent, interest per annum. But while resolving to issue debentures, in view of the poverty of this district and the town, we have requested

the government to permit us to raise this loan from persons residing even outside the municipal limits but within the district, as also from persons residing outside Madras State. Unless this concession is shown to us, it will be difficult to raise the full amount and push through the scheme. Now that 20,000 ft. of pipes for the pumping main have been received and are lying on the roadside causing obstruction to the traffic for over a year, and as already a large sum stands to our credit with the Government from Water Supply Scheme and as we have already enhanced the Water Supply & Drainage Tax from 4½ to 9 per cent as per directions of the government, and as we have already decided upon floating the loan for the balance amount of our share of the money for the scheme, we request you to kindly see that orders are immediately passed for laying the pipes and proceeding with the further work on the Water Supply Scheme.

3. Thw Water Supply Scheme having been practically launched we feel that it is time that the underground drainage scheme, at least for the low lying areas of the city is taken up and a beginning made in order to check the growing incidence of filarial infection.

4. We have been spending about Rs.40,000 per year on anti-mosquito measures and though we have not been able to bring down the incidence of filarial infection very much, we can at least say that we have been able to prevent a rise in the incidence of infection. We feel that if some intensive anti-mosquito work on scientific lines combined with some research work is carried on in this city under the aegis of government, the menace could be effectively checked and in course of time completely eradicated. We therefore request you to start an investigation centre in this city to tackle filarial infection and we assure you that we would whole-heartedly work out the scheme, under government direction. We may here point out that recently we have

sanctioned an expenditure of Rs.2500/- for meeting the allowances for three months, of one officer with small staff to formulate scheme and demonstrate the technique of control of filaria, to be sent over to this city by the Malarial Institute of India. We request the government to move the Malarial Institute of India, in the matter on our behalf.

5 The isolation sheds in which cases of infectious diseases are treated are situated in a thickly populated area in the town, the council has decided to shift the same and run an infectious Diseases Hospital in conjunction with the District Board a little outside the city limits on the Buntwal Mangalore Road. We request the government for a 50% grant for this Infectious Diseases Hospital as envisaged in G.O.No.2770 Health dated 8-8-1951.

6 As per instructions of the government the Municipality has been manufacturing compost and has been sustaining loss from year to year. On an average the municipality produces about 2000 tons of compost of which not even a fifth is sold even though we are selling the same at Rs.1-8-0 per ton as against the manufacturing cost of Rs.6-14-0 per ton. Even though we have been providing transport facilities in municipal lorries at cheap rates and have been doing propaganda to popularise compost, the cultivators are still averse to use compost manure. And now we are losing over Rs.8000 per year, by manufacture of compost. So we request you to exempt this municipality from manufacturing compost compulsorily on a large scale. We assure you that we would voluntarily manufacture compost to the extent there is local demand for it.

7 Our Port area is beyond municipal limits. In the interest of Public Health we submit that the Municipality should be allowed to control the sanitation and D & O trades in that area.

3 We would like to bring to your notice that the compensation paid to this municipality for the loss of income from motor licence fees and the contribution paid under the motor vehicles Act are only Rs.4431 and Rs.18000 respectively per year. These were fixed long ago. We urge that our share of the above require to be revised and enhanced, taking into consideration the present state of affairs.

4 There are two ferries at the municipal limits, viz., at Jeppoo and at Sultan Battery. It is but fair and proper that these should be made over to the municipality.

5 Last but not least, we have to request you to secure for us as a site for locating the municipal office, the police hockey grounds along the maidan. We have been requesting the government for the site for the last six years without any success. We request you to impress upon the government the necessity for locating the municipal office in a central place like the above.

6 We hope all our legitimate requests aforesaid will be acceded to by you and the government.

We remain,
Yours faithfully,

Municipal Office,
Mangalore, 1-7-1953.

Chairman & Members of the Mangalore Municipal Council.

Roc.B6/9209/53. Municipal Office, Mangalore, Dated 1st July, 53.

DIRECTOR FOR HEALTH SERVICES 9-JUL 1953
SECRETARY HEALTH DEPARTMENT 9-JUL 1953

From

Sri. L. C. Richard, M.A.,
Commissioner, Mangalore Municipality,
Mangalore.

To

The Secretary to Government,
~~Health~~ Public Health Department,
Madras.

Through: The Chairman, Municipal Council, Mangalore.
and
The Sanitary Engineer to Government, Madras.

Sir,

Sub: A C C O U N T S - Mangalore Municipal Council - Water Supply Scheme - raising of loans in open market - permission requested.

(B) Ref: G.O.No.Ms.1304, Health Department dated 17-4-53.

The total cost of the Mangalore Water Supply Scheme with Nethravathi river as source is R.82.5 lakhs, out of which Rs.25.5 lakhs has been fixed as the council's share. The Government have already sanctioned a loan of Rs.8 lakhs which was realised during the year 1952-53. (P) A further sum of Rs.2.5 lakhs has been provided for in the budget for the year 1953-54 as per G.O.Ms.1737, Health Department dated 7-5-1953. (A) After taking this into account the council has to meet the balance amount of Rs.15 lakhs towards its share. (B) The Government in their order No.1304 Health Department, dated 7-4-53 have expressed their inability to sanction the loan of Rs.25 lakhs for the scheme and accorded the administrative approval for raising the loan to meet the council's share.

There are proviso Mr M put them Mr Sile 9/53

p.17 infra

Accordingly the council in its resolution No.970 dated 27-6-1953 has resolved to raise a loan of Rs.15 lakhs towards its balance contribution for financing the Mangalore Water Supply Scheme by floating debentures at 4½% interest repayable in 15 years as per details mentioned in the notification.

Encl 4

The council has resolved to raise the loan from the residents of the Municipality of the district of South Kanara and from persons residing outside the Madras State. The council has also resolved to request the Government to grant permission to issue the loan and also to treat the investment on this loan as an investment in security approved by the Government. A copy of the council resolution together with a copy of notification is enclosed. The statement of financial and budgetary ~~provision~~ position under General Account for the year 1951-52 and also the statement of liability and assets as on 31-3-52 are also enclosed. The Government may be pleased to accord the necessary permission to float the loan at an early date and direct the Sanitary Engineer to expedite the execution of the work.

P.T.O

As this City is poor, after careful consideration the Council has resolved to request the Government to permit even persons residents outside the city but within the District to subscribe to this loan. Further as these ~~are~~ residents of this city and District living outside this state who have made money, the Council requests the Government to permit the loan to be subscribed by those people also. The Council also felt that the rate of interest should be 4½% in view of the present rate of interest allowed on Government securities. It is requested that permission may be accorded early so that the loan could be floated early and before the financial position of the subscriber becomes worse.

FORM OF APPLICATION FROM LOCAL BODIES FOR RAISING LOAN LOCALITY CAPITAL IMPROVEMENT TO FUNDS.

13

CAPITAL WORKS

1. Name of the local body	:	MANGALORE MUNICIPALITY.
2. Name of the work	:	Mangalore Water Supply Scheme.
3. Total estimated cost of the work	:	Rs.82.6 lakhs.
4. Government share of the cost according to any general or special orders that may be applicable to the case.	:	Rs.67 lakhs.
5. Whether detailed plans and estimates for the work have been accorded technical sanction by the competent authority? (Works for which such sanction has not been accorded at the time of submission of this application should not be included)	:	Yes. By the Sanitary Engineer to Government. Other information is available with him as the execution of the work is in the hands of the P.H.Engineering Department.
6. Has the site been selected and, if so, whether it is already at the disposal of the local body?	:	
7. If not, is land acquisition necessary and if so, what is the estimated cost of acquisition and the Government's share of it?	:	
8. What steps, in detail, have been taken to secure acquisition by Revenue authorities and by what date is it anticipated that the land would be placed at the disposal of the local body?	:	
Note: This should be ascertained in consultation with the Revenue authorities concerned. When land has to be acquired, the budget provision for grant in the first year should be restricted to the Government's share of the cost of land.	:	
9. Can the local body give an assurance that it has funds of its own available for land acquisition or for immediate expenditure on the work in the event of Government sanctioning a grant for either purpose? In the case of applications for grants for medical buildings is the local body willing to meet one half of the cost of the works from its own funds?	:	
10. Having regard to particulars under items 7 to 9, what is the total amount inclusive of Government grant which the local body expects to spend on land acquisition or on actual construction within the financial year for which budget provision is to be made?	:	

4

11. What is the Government share of item 10 and what is the amount of grant likely to be drawn within the year?

12. What will be the probable total expenditure and the Government grant in each of the subsequent years until the work is completed?
(Reasons should be given for the anticipation in regard to expenditure in each year until completion of the work.)

Note: It is essential that the estimates under items 10 to 12 should be prepared intelligently and carefully examined with reference to the nature of the work and other conditions affecting or likely to effect the rate of progress).

13. How the balance of the cost will be met.

Municipal Office, Mangalore,
Dated

Commissioner M.M.

MEMORANDUM
SUBMITTED
TO THE
HON'BLE SRI A. B. SHETTY, MINISTER FOR HEALTH,
GOVERNMENT OF MADRAS.
******

Sir,

We thank you for having accepted our invitation at short notice and consented to visit our office. We avail of this opportunity to place before you some of our problems for kind consideration by you and the government.

At the very outset we will be failing in our duty if we do not express our indebtedness to you and the government of Madras for sanctioining the Water Supply Scheme for this municipality with Hetravathi river as source, at a cost of 82.5 lakhs, and fixing our share of the cost at 25.5 lakhs. You are well aware, that although in the first instance the government agreed to advance a loan of 25.5 lakhs to enable us to meet our aforesaid share of the total cost, subsequently the government has directed us to raise a loan within our municipal area to meet our share of the cost, before further work could proceed. As the government had already granted to us a loan of Rs.8 lakhs in 1952-53 to enable us to meet our said share of the cost, and the government has been pleased to provide a further loan of 2.5 lakhs in their budget for 53-54 we have to find only the balance of 15 lakhs towards our share of the cost of the said scheme. So this council has decided to raise a loan of Rs.15 lakhs by floating debentures of 15 years' duration at 4½ per cent, interest per annum. But while resolving to issue debentures, in view of the poverty of this district and the town, we have requested the government to permit us to raise this loan from persons residing even outside the municipal limits but within the district, as also from persons residing outside Madras State. Unless this concession is shown to us, it will be difficult to raise the full amount and push through the scheme. Now that 20,000 ft. of pipes for the pumping main have been received and are lying on the road-side causing obstruction to the traffic for over a year, and as

already a large sum stands to our credit with the Government from Water Supply Scheme and as we have already enhanced the Water Supply & Drainage Tax from 4½ to 9 percent as per directions of the government, and as we have already decided upon floating the loan for the balance amount of our share of the money for the scheme, we request you to kindly see that orders are immediately passed for laying the pipes and proceeding with the further work on the Water Supply Scheme.

The Water Supply Scheme having been practically launched we feel that it is time that the underground drainage scheme, at least for the low lying areas of the city is taken up and a beginning made in order to check the growing incidence of filarial infection.

We have been spending about Rs.40,000 per year on anti-mosquito measures and though we have not been able to bring down the incident of filarial infection very much, we can at least say that we have been able to prevent a rise in the incidence of infection. We feal that if some intensive anti-mosquito work on scientific lines combined with some research work is carried on in this city under the aegis of government, the menace could be effectively checked and in course of time completely eradicated. We therefore request you to start an investigation centre in this city to tackle filarial infection and we assure you that we would whole-heartedly work out the scheme, under government direction. We may here point out that recently we have sanctioned an expenditure of Rs.2,500 for meeting the allowances for three months, of one officer with small staff to formulate scheme and demonstrate the technique of control of filaria to be sent over to this city by the Malarial Institute of India, in the matter on our behalf.

The isolation sheds in which cases of infectious diseases are treated are situated in a thickly populated area in the town, the council has decided to shift the same and run an Infectious

Diseases Hospital in conjunction with the District Board a little outside the city limits on the Puttur Mangalore road. We request the government for a 50% grant for this Infectious Diseases Hospital as envisaged in G.O.No.2770 Health, dated 8-8-1951.

As per instructions of the government the Municipality has been manufacturing compost and has been sustaining loss from year to year. On an average the municipality produces about 2000 tons of compost of which not even a fifth is sold though we are selling the same at Rs.1-8-0 per ton as against the manufacturing cost of ~~Rs~~ Rs.6-14-0 per ton. Even though we have been providing transport facilities in municipal lorries at cheap rates and have been doing propaganda to popularise compost The cultivators are still averse to use compost manure. And now we are losing over Rs.8000 per year, by manufacture of compost. So we request you to exempt this municipality from manufacturing compost compulsorily on a large scale. We assure you that we would voluntarily manufacture compost to the extent there is local demand for it.

Our Port area is beyond municipal limits. In the interest of Public Health we submit that the municipality should be allowed to control the sanitation and D. & O. trades in that area.

We would like to bring to your notice that the compensation paid to this municipality for the loss of income from motor licence fees and the contribution paid under the motor vehicles Act are only Rs.4401 and Rs.18000 respectively per year. These were fixed long ago. We urge that our share of the above required to be revised and enhanced, taking into consideration the present state of affairs.

There are two ferries at the municipal limits, viz., at Jeppoo and at Sultan Battery. It is but fair and proper

that these should be made over to the municipality.

Last but not least, we have to request you to secure for us as a site for locating the municipal office, the police hocky grounds along the maidan. We have been requesting the government for the site for the last six years without any success. We request you to impress upon the government the necessity for locating the municipal office in a central place like the above.

We hope all our legitimate requests aforesaid will be acceded to by you and the government.

We remain,
Yours faithfully,

Municipal Office,
Mangalore, 1-7-53.

Chairman & Members of the Mangalore Municipal Council.

DEPUTY 22 JUN 1953 HEALTH DEPARTMENT

No. 14911-W1/53-1 WS., dated 22-6-1953.

Sir,

Sub: Mangalore Water Supply Scheme.

Ref: Telephonic message dated 18-6-1953.

*****

The contract for the work of laying and jointing the pipes for the pumping main has been awarded to a tenderer after a call for tenders. The Executive Engineer (Public Health) was also instructed to proceed with the work of laying the pipes in straight reaches only, until the necessary pipe specials on order are received. The Executive Engineer (Public Health) however, reported that the Highways Department is objecting to the laying of the pipes in the existing roadwidth. The subject was recently discussed by me with the Chief Engineer (Highways); ~~and~~ the Executive Engineer (Public Health) and the local Divisional Engineer, Highways, are being advised to resolve the difficulties by a joint inspection and to proceed with the work of laying the pipes between the existing avenue limits. As the monsoon has set in however, the work will be taken up for active execution sometime in September only, by which time, the preliminaries regarding the exact alignment of the pipe line, the provision of funds by the Municipality etc., will have been settled.

P.T.O.

KV 22/6/53

I have also addressed the Municipality regarding the funds for the scheme, vide copy enclosed. I shall make a further reference in the matter as soon as I hear from the Municipal Commissioner.

*****

Sub: Mangalore Water Supply Scheme - Netravathi Source - Estimate and programme of execution - Sanctioned.

Ref: Health Department G.O. MS. No. 1304 Health dated 7-4-1953.

*****

In the G.O. cited above, Government have accorded administrative approval to the Water Supply Scheme (with the Netravati river as the source) subject to the condition that the Municipality raises a loan of Rs. 25.5 lakhs for the purpose. It is understood however that Government have already sanctioned a loan of Rs. 8.0 lakhs towards the scheme. It is not clear if the loan to be raised by the Municipality is inclusive of this figure or exclusive of it. This may please be clarified.

Please also let me know the amount which the Municipal Council would be able to place at the disposal of this Department, for the current year (1953-54) and whether the entire balance of the loan amount could be made available for expenditure on this scheme in the year 1954-55. This information is required for the Department to make necessary arrangements for the pipes and specials and machinery required for the scheme, so that the three year plan for execution of the scheme as approved by the Government may be implemented to the extent possible.

On hearing from you, I shall address the Government for taking further action in the matter.

Tour note HEALTH DEPT.(W2) 37

Water Supply - Mangalore Water Supply Scheme -

In 1949 the Government sanctioned plans and estimates amounting to Rs.3.15 lakhs for the first stage of the composite water supply scheme for Mangalore. On account of the poor yield and defective quality of water from the Gurpur river, an alternative scheme with the Nethravathi river as the source, was investigated. In April 1953, the Government accorded their administrative approval to an approximate estimate of Rs.82.85 lakhs for the revised scheme. The cost of the scheme was at first proposed to be met as follows:-

	Rs.
Municipal resources	4.11 lakhs.
Government grant.	53.24 lakhs.
Government loan.	25.50 lakhs.

In view of the present financial stringency, the Government have since expressed their inability to grant the loan and advised the Municipality to raise necessary loans for the execution of the scheme from the residents of its area. The Municipality is taking necessary steps in this direction.

2. In order to make beneficial use of 20,000 running feet of pipes already procured for the work, the E.E.(P.H.) has been instructed to proceed with the work of laying and jointing these pipes as an advance stage of execution of the scheme after obtaining necessary funds for the work from the Municipal Council. As regards the present stage of this item of work the Sanitary Engineer reports as follows:

"The contract for the work of laying and jointing the pipes for the pumping main has been awarded to a tenderer after a call for tenders. The E.E.(P.H.) was also instructed to proceed with the work of laying the pipes in straight reaches only,

8

until the necessary pipe specials on order are received. The E.E.(P.H.) however reported that the Highways Department is objecting to the laying of the pipes in the existing road width. The subject was recently discussed by me with the Chief Engineer (Highways); the Executive Engineer (P.H.) and the local Divisional Engineer, Highways, are being advised to resolve the difficulties by a joint inspection and to proceed with the work of laying the pipes between the existing avenue limits. As the monsoon has set in however, the work will be taken up for active execution sometime in September only, by which time, the preliminaries regarding the exact alignment of the pipe line, the provision of funds by the Municipality etc., will have been settled."

3. The Sanitary Engineer ~~also~~ has also made a reference to the Commr. regarding ~~for~~ the funds for this scheme and states that he will make a further reference to Government on receipt of reply from the Commr.

4. The note is circulated to M(H) for information.

4-JUL 53
HEALTH DEPARTMENT

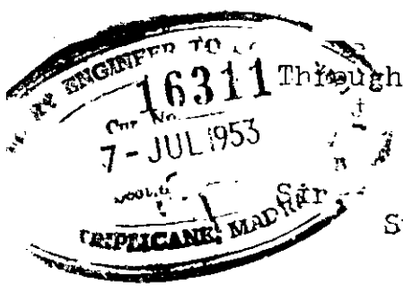
Roc.B6/9209/53. Municipal Office, Mangalore,
Dated 1st July, 1953.

From

Sri. L. C. Richard, M.A.,
Commissioner, Mangalore Municipality,
Mangalore.

To

The Secretary to Government,
Public Health Department,
Madras.



Through: The Chairman, Municipal Council, Mangalore.
and
The Sanitary Engineer to Government, Madras.

Sub: A C C O U N T S - Mangalore Municipal Council - Water Supply Scheme - raising of loans in open market - permission - requested.

Ref: G.O.No.Ms.1304, Health Department, dated 17-4-1953.

The total cost of the Mangalore Water Supply Scheme with Nethravathi river as source is Rs.82.5 lakhs, out of which Rs.25.5 lakhs has been fixed as the Council's share. The Government have already sanctioned a loan of Rs.8 lakhs which was realised during the year 1952-53. A further sum of Rs.2.5 lakhs has been provided for in the budget for the year 1953-54 as per G.O.Ms.1737, Health Department dated 7-5-1953. After taking this into account the council has to meet the balance amount of Rs.15 lakhs towards its share. The Government in their order No.1304 Health Department, dated 7-4-1953 have expressed their inability to sanction the loan of Rs.25.5 lakhs for the scheme and accorded the administrative approval for raising the loan to meet the council's share.

Accordingly the council in its resolution No.970 dated 27-6-1953 has resolved to raise a loan of Rs.15 lakhs towards its balance contribution for financing the Mangalore Water Supply Scheme by floating debentures at 4½% interest repayable in 15 years as per details mentioned in the notification.

The council has resolved to raise the loan not only from the residents of the Municipality but also from the district of South Kanara and from persons residing outside the Madras State. The council has also resolved to request the Government to grant permission to issue the loan and also to treat the investment on this loan as an investment in security approved by the Government. A copy of the council resolution together with a copy of notification is enclosed. The statement of financial and budgetary position under General Account for the year 1951-52 and also the statement of liability and assets as on 31-3-53 are also enclosed. The Government may be pleased to accord the necessary permission to float the loan at an early date and direct the Sanitary Engineer to expedite the execution of the work.

Dft

Forwarded with the following note:-

As this city is poor, after careful consideration the Council has resolved to request the Government to permit even persons resident outside the city but within the District to subscribe to this loan. Further as there are residents of this city and District living outside this State who have made money, the Council requests the Government to permit the loan to be subscribed by those people also. The Council also felt that the rate of interest should be 4½% in view of the present rate of interest allowed on Government securities. It is requested that permission may be accorded early so that the loan could be floated early and before the financial position of the subscribers becomes worse.

FORM OF APPLICATION FROM LOCAL BODIES FOR RAISING LOAN LOCALITY FOR CAPITAL IMPROVEMENTS TO ROADS.

15

CAPITAL WORKS

1.	Name of the local body	MANGALORE MUNICIPALITY.
2.	Name of the work	Mangalore Water Supply Scheme.
3.	Total estimated cost of the work	Rs.82.5 lakhs.
4.	Government share of the cost according to any general or special orders that may be applicable to the case.	Rs.57 lakhs.
5.	Whether detailed plans and estimates for the work have been accorded technical sanction by the competent authority? (Works for which such sanction has not been accorded at the time of submission of this application should not be included)	Yes. By the Sanitary Engineer to Government. Other information is available with him as the execution of the work is in the hands of the P.H.Engineering Department.
6.	Has the site been selected and, if so, whether it is already at the disposal of the local body?	
7.	If not, is land acquisition necessary and if so, what is the estimated cost of acquisition and the Government's share of it?	
8.	What steps, in detail, have been taken to secure acquisition by Revenue Authorities and by what date is at anticipated that the land would be placed at the disposal of the local body?	

Note: This should be ascertained in consultation with the Revenue authorities concerned. When land has to be acquired, the budget provision for grant in the first year should be restricted to the Government's share of the cost of land.

9. Can the local body give an assurance that it has funds of its own available for land acquisition or for immediate expenditure on the work in the event of Government sanctioning a grant for either purpose?

In the case of applications for grants for medical buildings is the local body willing to meet one half of the cost of the works from its own funds?

10. Having regard to particulars under items 7 to 9, what is the total amount inclusive of Government grant which the local body expects to spend on land acquisition or on actual construction within the financial year for which budget provision is to be made?

P.t.o.

11. What is the Government share of item 10 and what is the amount of grant likely to be drawn within the year?

12. What will be the probable total expenditure and the Government grant in each of the subsequent years until the work is completed?.
(Reasons should be given for the anticipation in regard to expenditure in each year until completion of the work.)

Note: It is essential that the estimates under items 10 to 12 should be prepared intelligently and carefully examined with reference to the nature of the work and other conditions affecting or likely to effect the rate of progress)

13. How the balance of the cost will be met.

Municipal Office, Mangalore,
Dated -53

Commissioner M.M.

Extract from the proceedings of the Mangalore Municipal Council, dated 9-5-53.

Read: Fl.12537/53. Govt. order Ms.No.1304, Health Department, dated 7.4.53 sanctioning the revised scheme for water Supply with Nethravathi river as source and suggesting to raise a loan as the Govt. are not in a position to grant the loan of Rs.25.5 lakhs for the purpose.

C.R.No.674. dated 9.5.53.

The Council resolves to raise a loan to meet its share of the balance of the Capital Cost and requests the Government to start work immediately on the first and II stages of the W.S.Scheme. The Finance committee will report on the terms and other particulars regarding the raising of the loan for the purpose.

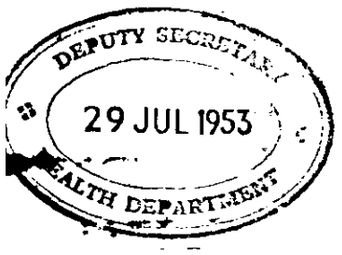
From the Sanitary Engr. Endt.No.16311 G/53-1 dated 11/7/53.



Sub: Mangalore Water Supply Scheme - Raising of loans in open market - Permission - Re.

Ref: From the Municipal Commissioner, Mangalore.No.B/9209/53 dated 1/7/53.

11291

Forwarded through the Chief Engr. P.W.D.(Genl.& Buildings) Chepauk.Madras.

According to G.O.No.Ms.1304 Health, dated 7/4/53 the scheme has to be financed as follows:-

Government grant : Rs.53.24 lakhs.
Government loan : Rs.25.50 lakhs.
Municipal contribution : 4.11 lakhs.

Leaving apart the sum of Rs.4.11 lakhs to be met from Municipal funds solely, the amount to be met from loans is only Rs.25.50 lakhs. Although it is stated in G.O.No.1034 Health dated 7/4/53 that Government would not be able to give a loan for this purpose and that they expect the Municipal Council to raise the loan from the open market, yet they have already sanctioned a loan of Rs.8.00 lakhs in 1952-53 vide G.O.No.365, Health dated 2/2/53. This apart, provision for a further loan of Rs.2.50 lakhs has been made in G.O.No.1737, Health dated 7/5/53, for payment in 1953-54. Taking into account these factors the Municipal council has now proposed to raise a private loan of Rs.15.00 lakhs only to meet the balance of the loan amount. Therefore it is for the Government to consider whether they would be able to sanction actually the further loan of Rs.2.50 lakhs in the current year and if so, to sanction the proposal of the Municipal council.

The Municipal Commissioner seeks approval to float the loan not only within Mangalore Town but also elsewhere. This is against the orders in G.O.No.1098 dated 26/3/1953 and is a matter for Government to decide.

To the Chief Engineer, P.W.D. (GENERAL & BUILDINGS) MADRAS.

Encl.Municipal Commr.'s letter & enclosures.

Forwarded to Government.

2. The Commissioner has now applied for permission to raise a loan of Rs.15 lakhs in the open market after taking into account the loan of Rs.8/- lakhs sanctioned in G.O. No.365 Health of 2-2-1953 and the loan of Rs.2.50 lakhs provided in the current year's budget vide G.O.No.1737 Health dated 7/5/53. If Government propose to sanction the loan of Rs.2.50 lakhs provided in the current year's budget, their permission to raise a loan of Rs.15 lakhs now sought for may be granted. Otherwise the loan amount of Rs.15 lakhs will have to be enhanced suitably.

3. The Council has resolved to raise the loan not only

p.t.o.

from the residents of the Mangalore Municipality but also from the residents of the other parts of district of South Kanara and from persons residing outside the Madras State. This is against the orders issued in G.O.No.1098 Health dated 26/3/53. Hence this is a matter for Government to decide before the permission is granted.

For Chief Engineer, P.W.D.(General & Buildings).

To the Secretary to Government,
Health Department.

CONTRIBUTED
TO THE
HON'BLE C. J. A. D. CHETTY, MINISTER FOR HEALTH,
GOVERNMENT OF MADRAS.
******

Sir,

We thank you for having accepted our invitation at short notice and consented to visit our office. We avail of this opportunity to place before you some of our problems for kind consideration by you and the government.

01803

DEPUTY SECRETARY
1 AUG 1953
HEALTH DEPARTMENT

At the very outset we will be failing in our duty if we do not express our indebtedness to you and the government of Madras for sanctioning the Water Supply Scheme for this municipality with Retravathi river as source, at a cost of 8285 lakhs, and fixing our share of the cost at 85.6 lakhs. You are well aware, that although in the first instance the government agreed to advance a loan of 85.6 lakhs to enable us to meet our aforesaid share of the total cost, subsequently the government has directed us to raise a loan within our municipal area to meet our share of the cost, before further work could proceed. As the government had already granted to us a loan of 5.8 lakhs in 1952-53 to enable us to meet our said share of the cost, and the government has been pleased to provide a further loan of 2.6 lakhs in their budget for 53-54 we have to find only the balance of 15 lakhs towards our share of the cost of the said scheme. So the council has decided to raise a loan of 5.15 lakhs by floating debentures of 15 years' duration at 4½ per cent, interest per annum. But while resolving to issue debentures, in view of the poverty of this district and the town, we have requested the government to permit us to raise this loan from persons residing even outside the municipal limits but within the district, as also from persons residing outside Madras State. Unless this concession is shown to us, it will be difficult to raise the full amount and much through the scheme. Now that 20,000 ft. of pipes for the pumping main have been received and are lying on the road-side causing obstruction to the traffic for over a year, and as

Health

KW
1/8/53

already a large sum stands to our credit with the Government from Water Supply Scheme and as we have already enhanced the Water Supply & Drainage Tax from 4½ to 5 percent as per directions of the government, and as we have already decided upon floating the loan for the balance amount of our share of the money for the scheme, we request you to kindly see that orders are immediately passed for laying the pipes and proceeding with the further work on the Water Supply Scheme.

3 The Water Supply Scheme having been practically launched we feel that it is time that the underground drainage scheme, at least for the low lying areas of the city is taken up and a beginning made in order to check the growing incidence of filarial infection.

4 We have been spending about Rs.40,000 per year on anti-mosquito measures and though we have not been able to bring down the incident of filarial infection very much, we can at least say that we have been able to prevent a rise in the incidence of infection. We feel that if some intensive anti-mosquito work on scientific lines combined with some research work is carried on in this city under the aegis of government, the menace could be effectively checked and in course of time completely eradicated. We therefore request you to start an investigation centre in this city to tackle filarial infection and we assure you that we would whole-heartedly work out the scheme, under government direction. We may here point out that recently we have sanctioned an expenditure of Rs.2,500 for meeting the allowances for three months, of one officer with small staff to formulate scheme and demonstrate the technique of control of filaria to be sent over to this city by the Filarial Institute of India, in the matter on our behalf.

5 The isolation sheds in which cases of infectious diseases are treated are situated in a thickly populated area in the town, the council has decided to shift the same and run an Infectious

Diseases Hospital in conjunction with the District Board a little outside the city limits on the Kanakapura road. We request the government for a 50% grant for this Infectious Diseases Hospital as envisaged in G.O.No.2770 Health, dated 6-8-1951.

6 As per instructions of the government the Municipality has been manufacturing compost and has been sustaining loss from year to year. On an average the municipality produces about 8000 tons of compost of which not even a fifth is sold though we are selling the same at Rs.1-8-0 per ton as against the manufacturing cost of Rs.6-14-0 per ton. Even though we have been providing transport facilities in municipal lorries at cheap rates and have been doing propaganda to popularise compost. The cultivators are still averse to use compost manure. And now we are losing over Rs.50,0 per year, by manufacture of compost. So we request you to exempt the municipality from manufacturing compost compulsorily on a large scale. We assure you that we would voluntarily manufacture compost to the extent there is local demand for it.

7 Our Port area is beyond municipal limits. In the interest of Public Health we submit that the municipality should be allowed to control the sanitation and D. & C. trades in that area.

8 We would like to bring to your notice that the compensation paid to this municipality for the loss of income from motor license fees and the contribution paid under the motor vehicles Act are only Rs.4431 and Rs.15000 respectively per year. These were fixed long ago. We urge that our share of the above receipts to be revised and enhanced, taking into consideration the present state of affairs.

9 There are two ferries at the municipal limits, viz., at Jeppu and at Sultan Battery. It is but fair and proper

1504

that these should be made over to the municipality.

10 Last but not least, we have to request you to secure for us as a site for locating the municipal office, the police hocky grounds along the maidan. We have been requesting the government for the site for the last six years without any success. We request you to impress upn the government the necessity for locating the municipal office in a central place like the above.

We hope all our legitimate requests aforesaid will be acceded to by you and the government.

We remain,
Yours faithfully,

Municipal Office,
Mangalore, 1-7-50.

Chairman & Members of the Mangalore Municipal Council.

Health Department (W2)

G.O. (Ms) No. 2811 dated 22.7.53.

Sub:- Water Supply - Mangalore Municipality - Raising of loan in open market - Orders passed -

Read the memorandum presented to the Minister for Health by the Mangalore Municipal Council, dated 1.7.53.

From the Commissioner, Mangalore Mpty., B.6.9209/53, dated 1.7.53.

From the C.M.C., Mangalore, letter dated 6.7.53.

The Mangalore Municipal Council has requested -

(i) that it may be granted permission to raise a loan of Rs. 15 lakhs towards its water supply scheme not only from its residents, but also from persons residing outside the Municipal limits but within the South Kanara District, and even from persons residing outside the Madras State; and

(ii) that orders may be issued for expediting the execution of the scheme.

2. The Commissioner, Mangalore Municipality, is informed that no loan will be granted to the Municipality from the State Funds during 1953-54, as the provision made therefor has since been deleted. The Municipal Council may, therefore, raise a loan of Rs. 17.5 lakhs (instead of Rs. 15 lakhs) in the open market.

3. The Govt. grant permission to the Municipality to raise a loan of ~~Rs.~~ (Rupees Seventeen and a half lakhs) Rs. 17.5 lakhs in the open market. They also approve as a special case the Council's request to raise it even from persons residing outside the municipal

p.t.o.

limits but within the South Kanara District, and also from persons residing outside the Madras State.

4. The Commissioner, Mangalore Mpty., is requested to submit a revised loan application for Rs. 17.5 lakhs in the light of the instructions in G.O. which is being issued separately.

5. As regards the execution of the scheme, the Executive Engineer (P.H.) had already been instructed by the S.E. to proceed with the work of laying the pipes in straight reaches with the pipes already available, until the necessary pipe specials are received. But the E.E. (P.H.) reported to the S.E. that the Highways Dept. was objecting to the laying of the pipes in the existing road width. The S.E., therefore, discussed the point with the C.E. (Highways). As a result, the E.E. (P.H.) and the local Divisional Engineer (Highways) have been advised to resolve the difficulties by joint inspection, so that the E.E. (P.H.) could proceed with the work of laying the pipes between the existing avenue limits. As, however, the monsoon has set in, the work will be taken up for active execution some time in September by which time, the preliminaries regarding the exact alignment of the pipe-line, the

provision of funds by the Mpty.,

etc., would have been settled.

The Municipal Council in its resolution No.674 dated 9-5-53 has resolved to raise a loan to meet its share of the balance of the capital cost of the Mangalore Water Supply Scheme and referred the matter to the Finance Committee to report on the terms and other particulars regarding raising of the loan for the purpose. A detailed report regarding this will be submitted separately for sanction after it is decided by the council. In the meanwhile the council requests the Government to start the work immediately on the first and second stages of the Water Supply Scheme referred to in G.O. No.1304 Health Department, dated 7-4-53. A copy of the council resolution is enclosed.

Sir,

Sub:-Water Supply - Mangalore Water Supply Scheme.
Ref:-Government Memo.No.29573 W2/53-1 H dated 5-6-53.

I forward herewith a copy of letter No.17398 W1/53-1 WS dated 30-7-53 from the Sanitary Engineer containing his remarks on the above Government reference. His letter No. 14911 W1/53-1 WS dated 22-6-53, referred to therein, is the one addressed to Government in the Health Department. In this letter it has been stated that the work will be taken up for active execution in September only due to various factors explained therein. His second letter No.15912 W1/53-1 WS dated 11-7-53 is the one addressed to this Office. A copy of this letter is enclosed herewith and it will be seen therefrom that the Sanitary Engineer is taking necessary steps to procure the pipes required for the work as early as possible.

2. In the circumstances, the Commissioner, Mangalore Municipality may be informed that all possible steps are being taken to commence the execution of the scheme at an early date.

Ref:- Your endt.No.3986 PH/53-1 dated 15-6-53 and endt.No.3986 PH/53-2 dated 15-7-53

In the letter of the Mangalore Municipal Council Doc.No.B.6.9209/53 dated 26-5-53 a copy of which was forwarded with your endt.cited above for my remarks it was requested that the execution of the Water Supply scheme may be taken up early. In this connection I invite your reference to my letters No.14911 W1/53-1 W.C. dated 22-6-53 and No.15919 W1/53-1 W.C. dated 11-7-53 in which I have reported the action taken in respect of the execution of this scheme. I presume that no further report is necessary at this stage.

(True copy)

Copy of letter No.15919-W1/53-1 WC dated 11-7-53 from the Sanitary Engineer, Madras addressed to the Chief Engineer, P.W.D.(General & Buildings), Madras.

Sub:- Mangalore Water Supply Scheme - Netravathi source - Programme of execution.

Ref:- My letter No.15665-W1/53-1 WC dated 3-6-53 addressed to the Municipal Commissioner, Mangalore, copy sent to the Chief Engineer.

In reply to my letter cited above, the Municipal Commissioner Mangalore addressed me in his letter dated 25-6-53 (copy enclosed) explaining that the Municipality expects to clear off the municipal share of the cost of the scheme during the current year itself.

In order not to lose time, I am taking immediate steps to place an order for the C.I.pipes required for the distribution system. The detailed design of the distribution system is still under preparation, but from the outlines so far finalised certain tentative quantities in select sizes of pipes could be indented for even now. A further indent for the balance of pipes required will be placed as soon as soon as the design of the distribution system is got approved.

In case the Municipality is going to place, at the disposal of the Department, a further amount to the tune of Rs.15 lakhs we could incur a substantial expenditure by importing a further consignment of the pipes required for the pumping main. I am however, making preliminary enquiries in the Indian market in regard to the period of delivery possible for the size and quantity of the pipes and shall address you again in the matter in due course.

(True copy)

Copy of letter No.B6-9209/53 dated 25th June, 53, from the Municipal Commissioner, Mangalore Municipality, Mangalore, to the Sanitary Engineer, Chemmank, Madras.

Sub:- Mangalore Water Supply Scheme - Netravathi River as source - information - furnished.
Ref:- Your letter No.15665-W1/53-1WC dated 3-6-53.

The Mangalore Water Supply Scheme with Netravathy River as source was sanctioned at an estimate of Rs.[illegible] lakhs out of which the Municipal share is a total sum of

sum of Rs.25.5 lakhs. Out of this Municipal share, a total sum of Rs.11,87,867/- has already been placed at the disposal of the Executive Engineer, P.H.Division, Coimbatore. The amount of Rs.11,87,867/- includes the Government loan of Rs.8 lakhs which has been included also in the municipal share of Rs.25.5 lakhs.

The balance of Rs.14 lakhs is yet to be advanced towards the execution of the scheme. The Government in their order No. 1787, Health Department, dated 7-5-53 have provided a sum of Rs.2 lakhs in the Budget for 1953-54 as loan to the Municipal Council. If this loan is sanctioned by the Government and realised during the current year the same will be advanced immediately on realisation.

There is still a balance of Rs.11.5 lakhs to be borne by the Council and it is proposed to float a loan of Rs.15 lakhs to meet this expenditure. The amount of loan thus accumulated will be placed at the disposal of the Executive Engineer, P.H. Division.

Hence, it is expected to clear off the municipal share during the current year.

Dept. for examining the other requests made in the memorandum. An extract of para 3 on p. 3 cf re. to Drainage Scheme has been taken for separate action.

Sep file issued & circulated

Cw. 1798 P. H 16/5/49 (not put up)

2. Water Supply Scheme:

In 1949, the Government sanctioned plans and estimates amounting to Rs. 3.15 lakhs for the first stage of the composite water supply scheme for Mangalore. On account of the poor yield and defective quality of water from the Gurpur river, an alternative scheme with the Nethravathi river as the source, was investigated. In April, 1953, the Government accorded their administrative approval to an approximate estimate of Rs. 82.85 lakhs for the revised scheme. The cost of the scheme was at first proposed to be met as follows:-

1304 H 7/4/53 (B)

	Rs.
Municipal resources	4.11 lakhs
Government grant.	53.24 lakhs
Government loan	25.50 lakhs

para 5 on p. 20 of (B)

In view of the present financial stringency, the Government have since expressed their inability to grant the loan and advised the Municiaplity to raise necessary loans for the execution of the scheme from the residents of its area, obtaining permission with reference to No. 1098, H., 8/26/3/53. T-le M. C.

p.t.o.

has now proposed to raise a loan of Rs. 15 lakhs from its residents, deducting a loan of Rs. 8 lakhs already sanctioned by the Govt. in Feb. 1953 and taking into account Rs. 2.5 lakhs provided in the B.E. for 53-54 for giving a loan to the Municipality. The loan of Rs. 8 lakhs has already been disbursed to the Mpty. in February, 1953, but the provision of 2.5 laksh in the B.E. for 53-54 was suggested before orders were issued asking the Mpty. to raise a loan in the open market. In view of the reason that it has been advised to raise a private loan, the provision of Rs. 2.5 lakhs originally made in the Budget Estimate 53-54 has since been recommended to Finance for deletion when submitting estimates for the Andhra State and the Residuary State. The Mpty. may therefore be told that no loan will be sanctioned to it in 1953-54 and that it may therefore raise a loan of Rs. 17.5 lakhs (instead of Rs. 15 lakhs) in the open market., for orders.

pp 1, 11417 c/f.

(P) — G.O. 365 H, 2/2/53 — p13

(A) — G.O. 1737 H, 7/5/53 — p3

(P) — p13

WR 10-7-53 A

3. The Ml. Cl. also requests permission to raise the loan not only from its residents but also from persons residing even outside the Ml. limits, but within the District and also from persons residing outside Madras State. The Cabinet decision on which orders have been issued in G.O. No. 1098, Health dated 26.3.53, is that a loan should be raised ~~from~~ by the Mpty. from the residents of the Mpty. concerned. If the request of the Mpty. which is exceeding the terms of the above G.O. is to be complied with, it will become an inconvenient ~~pre~~ precedent as many other Mptyes. will follow suit. Hence, it is for consideration whether the request of the Mpty. for permission to raise the loan, ~~even~~ from the persons residing outside its jurisdiction within the District and ~~from~~ also from outside the Madras State, may be negatived.

— pages 1, 11417 c/f

(X)

B Apparently difficulty is felt in raising loans from the residents of the Municipal area. Orders may be taken in circulation on this point.

WR 10-7-53

4. As regards the question of granting permission

p.t.o.

to the Mpty. for raising the loan in question, it is submitted that on a previous reference from the Mpty. addressed to the Reserve Bank, L.A. have been asked to issue general instructions laying down the procedure for raising loans by Municipalities in the open market. Only after general instructions are issued by L.A. Dept., orders can be issued granting permission to the Mangalore M. Cl. to raise the loan. The Mty. should be also be asked to revise the application for Rs. 17.5 lakhs, before permission is granted.

5. As regards the request of the Mpty. to proceed with the work of laying the pipes for water supply scheme, reference is invited to the tour note submitted to H (H) when he visited Mangalore recently. The Mty. may perhaps be informed on the lines of para 2 of the Tour Note at 'V'

6. L.A. and Finance may see for remarks on the points raised in paras 2-4 above.

A. Rs

B When the sum involved is so there seems to be no use in restricting the floating of the loan to the Mpl limits only Mplties may not be able to raise any loan at all In special cases with regd to the (Guntakal) amt of loans & the conditions the Govt will the Mplty give permission

4

sanction should be granted

In April 1953, the Govt. have accorded administrative approval to an approximate estimate of Rs.82.85 lakhs for the revised Water Supply scheme for the Mangalore Mfly. with the Netravathi River as source. (B) ~~Water Supply~~ The cost of the scheme was at first

(.)

p.t.o.

proposed to be met as follows:-

	Rs
Municipal Resources	4.11 lakhs
Government grant	53.24 lakhs
Government loan	25.50 lakhs
	82.85

As regards the loan ~~amount~~ of Rs. 25.50 lakhs, the Govt. have already sanctioned a loan of Rs. 8 lakhs to the Mpty. in 1952-53 and also proposed to disburse a loan of Rs. 2.5 lakhs during the current year. However, in view of the present financial stringency, the Govt. have ~~since~~ expressed their inability to grant a loan from the State funds and ~~therefore~~ advised the Mpty. to raise the loan for the Scheme from the residents of its area obtaining the ~~Govt.~~ permission of the Govt. with reference to G.O. No. 1098, Health, dated 26.3.53. The Ml. Cl. has now applied for permission ~~proposed~~ to raise a loan of Rs. 15 lakhs in the open market ~~from its residents~~ (after deducting the loan of Rs. 8 lakhs already sanctioned in 1952-53 and taking into account the amount of Rs. 2.5 lakhs provided in the B.E. for 53-54). It is now proposed to advise the Mpty. to raise a loan of Rs. 17.5 lakhs in the open market, (instead of Rs. 15 lakhs as proposed by it) in view of the reason that the provision of Rs. 2.5 lakhs originally made in the B.E. for 53-54 has since been ~~recommended for Finance for~~ deleted for when submitting estimates for the Andhra ~~to be~~ and Residuary States separately. L.A. and Fin. Dept. agree with this proposal.

2. The Mpty. ~~has~~ also requests for permission to raise the loan not only from its residents but also from persons residing ~~in and~~ outside the Ml. limits but within the Dt. and also from persons residing outside the Madras State. The Cabinet decision on which orders have been issued in G.O. No. 1098, Health, dated 26.3.53, is that a loan should be raised by each

p;t.o.

Mpty. from its residents, only. This Dept. considered that the request of the Mpty. might be complied with in view of the large sum of the proposed loan and for the reason that the Mpty. might not be able to reach the targets only from its residents. The L.A. Dept. agrees with the views of this Dept. But the Fin. Dept. states that the Cabinet was based on the good principle ~~in the restrictions has been enforced apparently~~ that persons benefitted by a scheme should shoulder the necessary burden and that the loans raised by the Mpty. should not be competing with the Govt. flotations ~~and~~ They are therefore against the proposal of the Ml. Cl. to raise the loan even from the residents outside the Mpty. In the circumstances, it is for orders whether the request of the Ml. Cl. to raise the loan from the persons residing ~~in and~~ outside the Ml. limits but within the district and also from persons residing outside Madras State will be complied with.

This is not a new scheme. Govt. are already committed to it and a loan of Rs 2.5 lakhs has been provided in the budget estimate. The delay in the execution of the scheme was due to the change of source owing to too much iron content and inadequacy of supply in the original Gurpur river source and this was not the mistake of the municipality. The municipality may, therefore, be asked to raise a loan of Rs 15/- lakhs only as requested by it. It may be permitted to raise the loan from persons or institutions in the whole district after the closure of the Govt. loan now floated. It may be difficult for the municipality to raise the required amount from persons within the municipal limits since fairly large contributions must have been made to the Govt. loan from South Kanara.
